

# EFFICIENCY ENHANCEMENT FOR MARITIME VESSELS.

**CONTACT US TODAY**  
to optimize your operational profits with  
a contractually guaranteed ROI

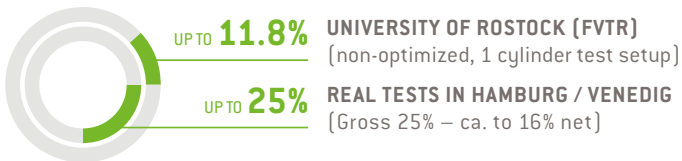

## FS MARINE+

Next generation efficiency enhancement for maritime vessels with a guaranteed return-on-investment (ROI) within 3 years.

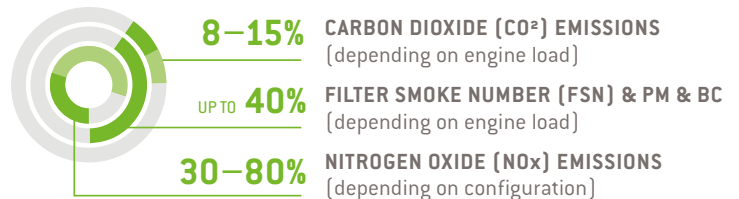

With **FS MARINE+** FUELSAVE introduced in 2018 a disruptive and unique retrofit solution, which is field & laboratory proven, for addressing challenges in the maritime industry for decreasing significantly fuel consumption and cut emissions **to reduce operating expenses (OPEX) and increase the operational profitability, while reducing the impact on the environment for a clear win-win** with a unique value proposition.

## PROVEN BENEFITS

### 1 — REDUCED FUEL CONSUMPTION

### 2 — REDUCED EMISSIONS IM0 tier I & IM0 tier II compliant

### 3 — REDUCED ENGINE WEAR & TEAR

### 4 — NO HARM TO THE OPERATING ENGINE

- ✓ UNIVERSITY OF ROSTOCK (FVTR)  
No harm observed on the operating engine
- ✓ DNV GL / CARL BAGUHN HAMBURG  
Two inspections > excellent results (less soot / less vibrations, etc.)
